

## Testimonial for Gilad Sadan – NAVI Co Global

Working with Gilad at Navi Co Global has been nothing short of an amazing experience, that's a big statement, however finding a partner company who understands not only technical packaging elements but also consumer marketing is a rare find indeed.

I have had the pleasure of working with Gilad at a project level thus giving me the unconditional confidence to refer him into our customers. He has done nothing but excel and deliver amazing value added services in every project.

Thinking outside the square, Gilad is able to clearly articulate ideas to Result as a supplier of our Reclose and Easy Open Packaging as well as Labelling, Sleeving and Coding machinery to help us deliver point of difference Packaging to Fresh Produce customers across the country.

Result would happily recommend NAVI Co Global to any customer looking to bridge the gap in Consumer Marketing and Product Differentiation when working in a pure Packaging Material and Machinery environment.

Kind Regards

Michael (Doss) Dossor
